

If you were an Engineer, what would you do?

Your Challenge: *Think* - 'If you were an engineer,
what would *I* do?'

- 1) Think about a problem that you could solve or something you could make better by designing, engineering and making something.
- 2) Research engineering – look at the different types of engineering and the different engineering companies, related to your focus.
- 3) Draw a design, describe how it works in the situation you've identified and write a 'Pitch Letter' of a minimum of 100 words in response to the question: 'If you were an Engineer – what would you do?'

Please bring your finished design with you to school by the end of the first week of next half term (Closing Date: Friday 1st March).
